

3/22/72

Mr. Henry Wade
District Attorney
Dallas, Texas

Dear Henry,

I can now use my left hand but I don't remember whether or not I sent you the books I promised. Someone was here when the use of the hand was restricted, I did get some copies out of the boxes, but I don't remember if I sent them because about that time several other people came here who wanted them and I may have used all I had out that way.

If I didn't send them, let me know, please, and I will.

You may not have heard from Mrs. Mary Ferrell. First she got sick, then she had to go abroad, and about the time they got back her husband had to be hospitalized because some old surgery wasn't holding. All of this with her full-time job may have been a bit too much even for someone as energetic as she is.

Best regards,

Harold Weisberg
